PROFILE

Detail-oriented final-year BICT undergraduate with hands-on experience in software testing, automation basics, and web application development. Strong understanding of software development and testing methodologies including SDLC, STLC, and Agile practices. Familiar with Playwright, Selenium, API testing, and AI-assisted development tools. Passionate about learning emerging technologies, solving problems, and contributing to high-quality software products in collaborative environments.

WORK EXPERIENCE

Quality Assurance & UI/UX Intern

May 2025 – Nov 2025

Crow.lk (Pvt) LTD

- Designed and executed manual test cases and test scenarios based on business requirements
- Performed functional, regression, exploratory, and usability testing across 6+ web applications
- Identified, documented, and tracked software defects with detailed reproduction steps
- Collaborated with developers to analyze issues and verify bug fixes
- Participated in requirement reviews and QA discussions to improve software quality
- Assisted with automation testing activities using Playwright and Selenium
- Maintained QA documentation including defect reports and test execution records
- Worked independently and collaboratively to complete testing tasks within deadlines

Key Projects:

- **E-commerce & Service Websites** - (True Spark Cleaning site, Garage website, Homebuilder website, Energy Consumption site and Axita Laptop shop site) – Manual testing, Defect reporting and Usability Testing
